

Download and use patient images from SMS

Purpose: Capture photos that patients send and extract important details.

Steps

1. Open the SMS thread for the call.
2. Click on any image to open it.
3. Download if you need to attach it to the chart.
4. Use the parsed text that SimboConnect shows for common cards to copy values into your EHR.

Tips and good practice

- Check that the image is clear before you rely on the extracted text.
